DOMINICAN
SISTERS OF PEACE

Plant a seed
harvest a future

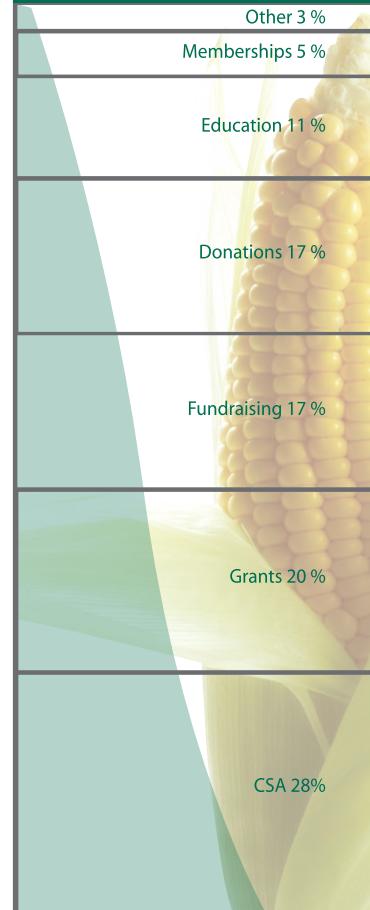

As a Crown Point member you will be part of a community that shares your desire to protect and preserve our natural resources for future generations. Your financial support will enable Crown Point to:

- Provide educational opportunities that allow children, youth and adults to learn more about the ecosystems which we share with all of Earth's living creatures. Examples of programs include: Summer Farm & Science Camp, Tiny Tillers, Farm-to-School and various workshops for adults.
- Ensure that the woods, ponds and meadows of Crown Point remain inviting and freely available to all who are seeking a safe space for quiet contemplation and peaceful meditation.
- Deliver healthy, organically-grown produce to local food banks and food pantries. All of Crown Point's property is managed with sustainable methods --- no herbicides or synthetic pesticides are used!
- Bring ecology and gardening to traditionally underserved communities: special needs adults, at-risk youth and families living in poverty areas.

As a non-profit organization, Crown Point Ecology Center depends and thrives on the generosity of people just like you -- people passionate about sustaining the world in which we live.

HERE'S HOW YOUR DONATION HELPS

Revenue from farm operations and educational programs covers less than 40% of our total costs.
